

Bridal Beauty COUNTDOWN

Luscious Lashes

Let your eyes shine. Make your natural lashes bold, dark and thick with Latisse.

WHEN? At least 3 months in advance. Latisse takes 12 weeks to see full results.

Contoured Curves

Problem areas? Freeze your fat away with CoolSculpting! No Surgery! No Downtime!

WHEN? At least 2-3 months in advance because it takes that long to see results. Some people may benefit from more than one treatment.

Get the Glow

Customized skin care treatments including chemical peels and facials. Brighten and tighten your complexion with anti-aging micro-needling and PRP treatments

WHEN? A few months before to see significant improvement or 1-2 weeks for pre wedding glow.

Smooth Wrinkles

Banish wrinkles with Botox and restore youthful contours with Fillers.

WHEN? Give it a try a few months in advance and then touch it up 2-3 weeks before the wedding

Perfect Pout

Let fillers plump your lips for that perfect pout.

WHEN? Give it a try a few months before and then touch it up 2-3 weeks before the wedding.

Forgot Something?

For those brides to be who want a little more... Talk to Dr. Bev about Breast Augmentation, Liposuction or Facial Rejuvenation surgery.

WHEN? At least 6-9 months before since you want to be fully healed to enjoy your big day.
